Consolidated operating profit forecast before amortization of goodwill and other intangible assets for the full year before amendment: 100.1 billion yen

**Reason for Amendment**

Since the Dentsu Group's, particularly Dentsu Inc.'s financial results for the first six months (from April 1 to September 30, 2013) were strong, the consolidated and non-consolidated results for both the first half and the full year are expected to exceed the initial forecast. The advertising market in Japan is expected to remain strong, and, as shown in the above charts, Dentsu has therefore amended its forecast of consolidated and non-consolidated financial results for the fiscal year ending March 31, 2014 which was announced on May 14, 2013.
